Praise for Fact Cards for Calendar Pocket Charts!

"After 1-1/2 months with a 'fact of the day,' my students are hooked. It's fun to start our days with an 'Oooh' or 'Wow' about things we take for granted like apples or pumpkins. It's also amusing to hear them inform everyone with whom we come into contact what they've learned. What a great idea and thanks for all the background research!"

"My class cheered when I told them I bought this November set – they enjoyed the apple/September theme and are liking the current pumpkin/October set too!"
