

Name _____

Date _____

Compare your data with your partner's data:

Who has more fruits? How many?

Who has the least amount of meats? How many?

If you add your breads with your partner's breads, how many breads will you have altogether?

If you subtract your veggies from your partner's veggies, how many will you have left?

Add your partner's milk and veggies together, then subtract **YOUR** bread. What is that difference (answer)?
